

KATHLEEN CUSHMAN

Youth voices bringing education research to life

As a journalist and documentarian of adolescent learning, I interview students themselves about what challenges and inspires their growth and development. In our books, workshops, and presentations, their voices illuminate important research on key issues and opportunities:

- [Student motivation and mastery](#)
- [Social, emotional, and academic development](#)
- [Transformative school designs and structures](#)
- [College and workplace access and transitions](#)
